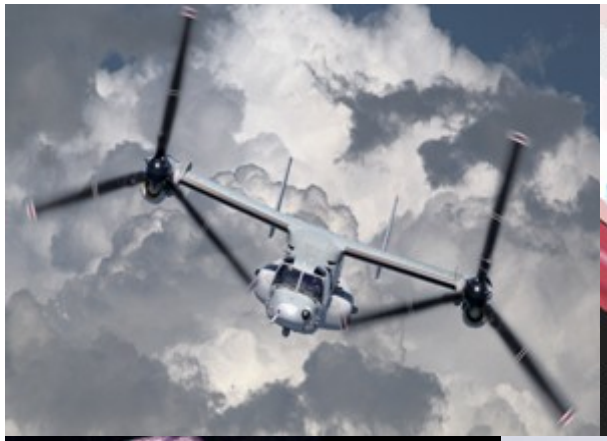
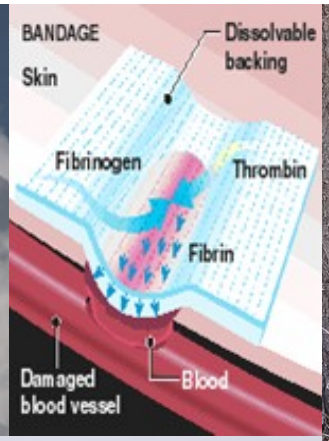
USSOCOM Acquisition & Logistics

The purpose of Acquisition & Logistics





is to support SOF Warfighters

What Makes USSOCOM Different?

(What Do Our Warfighter's Expect?)

- Rapid fielding & deployment requirements
- Usually demand state-of-the-art capabilities
- We are perceived as the "Tip of the Spear" for selected battlefield capabilities
  - Often results in special operations peculiar items becoming Service common.

Acquisition Authority

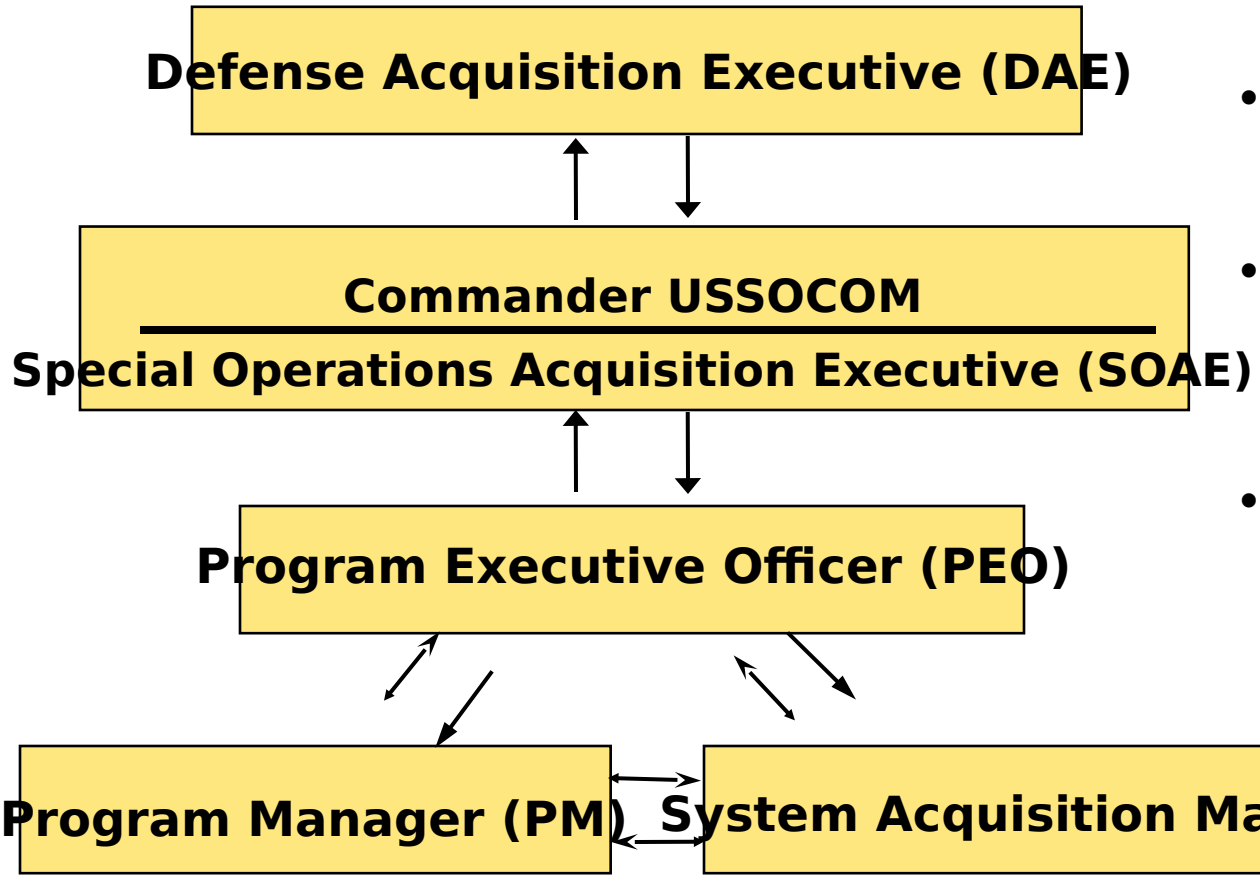
COMMANDER USSOCOM's Authority (10 USC Section 167)

- Develop and acquire special operations peculiar equipment
- Acquire special operations peculiar material, supplies, and services
- Head of agency for acquisition authority

Special Operations Peculiar

- Equipment, material, supplies, and services required for Special Operations activities for which there is no Service common requirement. This includes:
  - Items and services initially designed for, or used by, SOF until adapted for Service common use
  - Modifications approved by CDR, USSOCOM for application to standard items and Service use by DOD forces
  - Items and services approved by CDR, USSOCOM as critically urgent for the immediate accomplishment of a special operations activity

USSOCOM Acquisition Authority Chain



- Streamlined acquisition decision process
- PMs / SAMs have ready access to decision makers
- PMs / SAMs have ready access to users, requirements, and resourcing staffs
